Re: CALFED Program

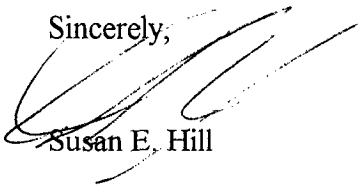

Dear Governor Davis:

Please protect our rivers, bays and drinking water. Ensure that the CALFED program:

- Invests in water efficiency for at least the next seven years before considering new dams or reservoirs;
- Restores rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers;
- Improves water quality for people and wildlife by enforcing pollution limits; and
- Stops forcing taxpayers to pay for studies of new dams and reservoirs that flood habitat areas and remove water from the rivers.

Thank you for your attention to this matter.

Sincerely,

Susan E. Hill
